

Kilnsey Angling Club - Catch Return Instructions

On this form you will see a series of fields with a dark green background. The first five at the top are basic documentation. If you click on most fields then wait a help message will appear. Click on the first to enter your name. By pressing the 'Tab Key' on your keyboard you can move to the next field. Click on the date field and you will see a little black triangle at the end, if you click on this a calendar will open and you can click on the relevant date which will be entered automatically. Then move to the next two fields to enter the approximate start and end time in the format XX:XX using the 24 hour clock eg 12:30. Then enter the beat.

Next enter the details of each fish you catch, one line per fish. Please note the options you entered on each line will be offered as options to click on for subsequent lines to save typing and aid data entry.

Steve Haithwaite has provided the following for identifying Wild versus Stocked fish:

This data is essential to the club's stocking strategy so can members, guests and visitors please make every effort to submit their catch returns within 24 hours of fishing, identifying whether the fish are wild or stocked (identified by a removed adipose fin for 2021).

These catch returns will be totalled up by beat and will determine the following month's stocking volumes. It therefore goes without saying that if catches are not reported then it is unlikely that the beat will be re-stocked appropriately.

If you are certain a fish with an intact adipose fin is a stock fish please record it as such. Otherwise record such fish as wild.

Save the form with whatever filename you wish to a folder of your fishing returns on your computer. This will serve as your personal fishing record. Finally email a copy of the form as an attachment to catchreturns@kilnseyanglingclub.co.uk.

Thank you for your help. Any questions please use this email address to forward them to me. Let me know of any glitches and I will try and 'mend' them.

Kind regards

John Buxton
